About

Carolin Zöbelein
Independent mathematical scientist
🌐 https://research.carolin-zoebelein.de

Hi,

my name is Carolin and I'm an independent mathematical scientist. I work as freelancer on topics around **it-security**, **decentralized networks**, **online privacy & anonymity** and **censorship circumvention** with **mathematical (Cryptography, Algebra, Number Theory) focus**.

I publish all my work under free licenses (as long it is not limited by third parties). I believe in open knowledge and that the results of research and its access has to be possible and free, without any fees, for everybody.

I would be happy to get your support, to protect our right for private communication, open knowledge and online security.

CV

Available on https://research.carolin-zoebelein.de/files/cv_longversion.pdf.

I support encrypted communication over Signal, Telegram, Threema and Threema Work. Contact me for contact information. Number on request.

Mission
To help people, who want to make the world better, with my mathematical and technical skills to circumvent repression and censorship and protecting their privacy.

Crowdfunding
Parts of my work are crowdfunded. You can find ways for supporting me here:
